

Annex

Action taken for IAMU events, projects and activities in FY2020

1. Major events in 2020

(1) IAMU Student Forum 2020 in July at IMO headquarters, London, United Kingdom
Action: The event shall be postponed to the following year after having consultation with the External Relation Office at IMO. Main theme and workshop topics may be changed accordingly.

(2) The 21st Annual General Assembly incl. IAMUC and IAMUS in October, Batumi, Georgia
Action: The events shall be postponed to the following year. Consequently, the host universities of AGA21 in 2021 and AGA22 in 2022 will be rearranged by IEB after having consultation between BSMA and AASTMT (e.g. AGA21 in Batumi and AGA22 in Alexandria or *vice versa*). Call for the host university of AGA23 will not be advertised in 2020. In principle, IEB 12, to be held in October 2020, will take place electronically.

2. Funded projects' activity in FY2020

(1) Research Projects for both all and young academic staff in FY2019
Action: In principle, all research teams of the funded project in FY2019 should submit their final reports by the end of May as described in their contract papers. However a special extension of the project deadline may be available upon request in a written format with clear reasons caused by issues on COVID-19, which should be submitted from the research contractor to the Secretariat by the end of April 2020.

(2) Research Projects for both all and young academic staff and Organizational Development Projects funded in FY2020

Action: The research/project period of each project selected in FY2020 will be shifted to FY2021, i.e. from May 2021 to May 2022 for RP and from May 2021 to March 2022 for ODP. In principle, other conditions, including the budget, described in the research projects and the organizational development projects remain the same.

(3) Research Projects for both all and young academic staff and Organizational Development Projects funded in FY2021

Action: A call for Research Projects FY2021 will be terminated and Call for Organizational Development Projects FY 2021 will not take place.

3. Other activities involving international collaboration and meetings

Action: For all activities performed under IEB and SCs, the Secretariat will readily assist those members to organize online meetings to achieve the objectives of the activities.
